SUMMARY

I'm a BIM Modeler with 2 years of experience. I have contributed to over 6 projects spanning all phases of BIM, including Design, Shop Drawing, Fabrication, As-Built, and Operation & Maintenance.

Driven by a strong desire to learn and a high sense of responsibility, I am eager to find a working environment where I can develop my skills and contribute valuable assets to the company.

WORK EXPERIENCES

05/2023 – Present

Building Innovation Management Technology Joint Stock Company (BIMTech JSC)

BIM MODELER

- Update and modify models in line with the latest design;
- Perspective rendering.
- Implement Shop drawings of reinforced concrete structure;
- Schedule, Update and Coordinate with site coordinating;
- Control, Report and Resolve conflicts.
- Build 3D interior models at LOD400 detail;
- Implement detail drawings for interior models.

05/2022 – 05/2023

BIMLAB - Ho Chi Minh City University of Technology (HCMUT)

INTERN

- Implement finish drawings;
- Schedule, Update and Coordinate with site coordinating;
- Control, Report and Resolve conflicts;
- Update 3D models at LOD500 detail;
- Update non-geometric information for the model conforming to project standards.

TECHNICAL SKILLS

Revit

- Expert in Architectural and Structural Modeling, including family creation and modification.
- Proficient in generating detailed shop drawings and construction documentation.
- Experienced in clash detection and coordination using Revit.

AutoCAD

- Proficient in creating and editing 2D drawings for Architectural, Structural disciplines.
- Skilled in utilizing AutoCAD's tools for precise dimensioning, annotation, and layer management.
- Ability to convert and import/export drawings to various file formats (DWG, DXF, PDF).

Enscape

- Proficient in real-time rendering and visualization for architectural and interior design projects.
- Experienced in integrating Enscape with Revit using Direct Link.
- Skilled in advanced lighting and environmental effects for realistic visualizations.

Twinmotion

- Skilled in asset customization and vegetation creation.

Microsoft Office

- Expert in Microsoft Word for creating professional reports and documentation.
- Proficient in Microsoft Excel for data analysis, project management, and reporting.
- Skilled in Microsoft PowerPoint for creating engaging presentations.

SOFT SKILLS

● Teamwork   ● Problem Solving   ● Time Management   ● Attention to Detail

EDUCATION

2019 – 2024
Ho Chi Minh City University of Technology, HCMUT
Bachelor of Civil and Industrial Engineering
My Capstone Project was awarded a mark of 8.7, which was the highest distinction conferred that semester.

CERTIFICATES

TOEIC LISTENING & READING
The score was 615.

REVIT STRUCTURE
Issued by REACTEC - Ho Chi Minh City University of Technology (HCMUT)
